Proposed Rule Change
by

THE OPTIONS CLEARING CORPORATION

Pursuant to Rule 19b-4 under the
Securities Exchange Act of 1934

Item 1. Text of the Proposed Rule Change

The Options Clearing Corporation (“OCC” or the “Corporation”) proposes to amend Article XVII of its By-Laws, as set forth below, for the purpose of providing legal certainty for the trading of particular products. Material proposed to be added to OCC’s By-Laws as currently in effect is underlined and material proposed to be deleted is enclosed in brackets. Amended material proposed to be added to OCC’s By-Laws is double-underlined and material proposed to be deleted as a result of the amendment is in double brackets.

ARTICLE XVII**Index Options and Other Cash-Settled Options**

Definitions

SECTION 1

A. – Q. [No change]

R.

(1) [No change]

Relative Performance Index

(2) The term “relative performance index” means an index designed to measure the relative performance of a reference security or reference index in relation to another reference security or reference index.

(2) [Renumbered as (3); otherwise no change]

S. – Z. [No change]

General Rights and Obligations of Holders and Writers of Index Options

SECTION 2

(a) – (c) [No change]

... Interpretations and Policies:

For the elimination of doubt, OCC will clear and treat as options on securities any options on relative performance indexes [[measuring the total returns of one reference security, such as a stock or exchange traded fund, against another reference security, including in situations in which one of the reference securities of the relevant index]] for which a reference security is an exchange-traded fund designed to measure the return of gold or silver, but not options on relative performance indexes for which a reference security is an exchange-traded fund designed to measure the return of a commodity other than gold or silver.

Adjustments

SECTION 3

(a) – (e) [No change]

(f) In the event that the value of an underlying relative performance index [index designed to measure the relative performance of a reference security or reference index in relation to another reference security or reference index (a “relative performance index”)] falls below zero, any such negative value of the index will be deemed by the Corporation to be zero; provided, however, that if it is deemed impractical for systems reasons to have an index value of zero, then any index value of zero or below will be deemed to be an economically nominal positive number. Such an adjustment will have the effect of limiting the maximum exercise settlement amount for in-the-money put options on such indexes to the difference between the exercise price and the nominal positive number substituted for the actual index value (times the applicable multiplier). Adjustment in the value of an underlying relative performance index pursuant to this paragraph shall not require any action of an adjustment panel.

(g) In the event that any individual reference security in an underlying relative performance index [(as defined in the preceding paragraph)] is eliminated as the result of a cash-out merger or other event, the reporting authority may cease to publish the index. In that case, the exercise settlement value of the options would become fixed based upon the last published value for the index, and the Exchange on which such options are traded may determine to accelerate the expiration date for such options (and, in the case of European-style options, their exercisability). The expiration date for such options will ordinarily be accelerated to fall on the next regularly scheduled expiration date for the same class of options or such other date as the Corporation may establish in consultation with the Exchange on which such options are traded.

(h) [No change]

Item 2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by OCC's Board of Directors at a meeting held on July 26, 2011.

Questions regarding the proposed rule change should be addressed to Stephen M. Szarmack, Vice President and Associate General Counsel, at (312) 322-4802.

Item 3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to remove any potential cloud on the jurisdictional status of relative performance indexes. NASDAQ OMX PHLX has proposed to trade options on indexes ("Alpha Index Options") that measure the relative total returns of a stock or exchange-traded fund ("ETF") against another stock or ETF where one of the reference ETFs measured by the index is a gold- or silver-based ETF. Generally, a relative performance index should be considered to be an index of securities since the components of a relative performance index are ETFs or other securities. However, OCC would like to confirm the jurisdictional treatment of relative performance indexes in situations in which a reference security of an underlying relative performance index is an ETF designed to measure the return of gold or silver. To accomplish this purpose, OCC is proposing to add an interpretation following Section 2 in Article XVII of OCC's By-Laws, clarifying that OCC will clear and treat as securities options on any such relative performance index. The Securities and Exchange Commission (the "Commission") and Commodity Futures Trading Commission ("CFTC") have

previously approved changes to OCC's By-Laws clarifying that options on the CBOE Gold ETF Volatility Index will be cleared and treated as securities.¹

In its capacity as a "derivatives clearing organization" registered as such with the CFTC, OCC is filing this proposed rule change for prior approval by the CFTC pursuant to provisions of the Commodity Exchange Act (the "CEA") in order to foreclose any potential liability under the CEA based on an argument that the clearing by OCC of such options as securities options constitutes a violation of the CEA. The rule filing has been amended at the request of the CFTC. The CFTC requested that the rule filing be amended to clarify that OCC will clear and treat as options on securities any options on relative performance indexes for which a reference security is an exchange-traded fund designed to measure the return of gold or silver.

* * *

The proposed interpretation of OCC's By-Laws is consistent with the purposes and requirements of Section 17A of the Exchange Act because it is designed to promote the prompt and accurate clearance and settlement of transactions in securities options, to foster cooperation and coordination with persons engaged in the clearance and settlement of such transactions, to remove impediments to and perfect the mechanism of a national system for the prompt and accurate clearance and settlement of such transactions, and, in general, to protect investors and the public interest. It accomplishes this purpose by reducing the likelihood of a dispute as to the Commission's jurisdiction over relative performance indexes in situations where one of the

reference securities of an underlying relative performance index is a gold- or silver-based ETF.

The proposed rule change is not inconsistent with the By-Laws and Rules of OCC.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any material burden on competition.

Item 5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none has been received.

Item 6. Extension of Time Period for Commission Action

OCC does not consent to an extension of the time period for Commission action on the proposed rule change.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Not applicable.

Item 8. Proposed Rule Change Based on Rules of Another Regulatory Organization or of the Commission

The proposed rule change is not based on a rule change of another self-regulatory organization.

The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would remove any potential cloud on the jurisdictional status of relative performance indexes.

The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to remove any potential cloud on the jurisdictional status of relative performance indexes. NASDAQ OMX PHLX has proposed to trade options on indexes (“Alpha Index Options”) that measure the relative total returns of a stock or exchange-traded fund (“ETF”) against another stock or ETF where one of the reference ETFs measured by the index is a gold- or silver-based ETF. Generally, a relative performance index should be considered to be an index of securities since the components of a relative performance index are ETFs or other securities. However, OCC would like to confirm the jurisdictional treatment of relative performance indexes in situations in which one of the reference securities of an underlying relative performance index is an ETF designed to measure the return of gold or silver. To accomplish this purpose, OCC is proposing to add an interpretation following Section 2 in Article XVII of OCC’s By-Laws, clarifying that OCC will clear and treat as securities any relative performance index, including in situations in which one of the reference securities of a relative performance index is an ETF designed to measure the return of gold or silver. The Securities and Exchange Commission (the “Commission”) and Commodity Futures Trading Commission (“CFTC”) have previously approved changes to

OCC's By-Laws clarifying that options on the CBOE Gold ETF Volatility Index will be cleared and treated as securities.¹

In its capacity as a "derivatives clearing organization" registered as such with the CFTC, OCC is filing this proposed rule change for prior approval by the CFTC pursuant to provisions of the Commodity Exchange Act (the "CEA") in order to foreclose any potential liability under the CEA based on an argument that the clearing by OCC of such options as securities options constitutes a violation of the CEA. The rule filing has been amended at the request of the CFTC. The CFTC requested that the rule filing be amended to clarify that OCC will clear and treat as options on securities any options on relative performance indexes for which a reference security is an exchange-traded fund designed to measure the return of gold or silver.

The proposed interpretation of OCC's By-Laws is consistent with the purposes and requirements of Section 17A of the Exchange Act because it is designed to promote the prompt and accurate clearance and settlement of transactions in securities options, to foster cooperation and coordination with persons engaged in the clearance and settlement of such transactions, to remove impediments to and perfect the mechanism of a national system for the prompt and accurate clearance and settlement of such transactions, and, in general, to protect investors and the public interest. reference securities of an underlying relative performance index is a gold- or silver-based ETF.

The proposed rule change is not inconsistent with the By-Laws and Rules of OCC.

B. Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change and none have been received.

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.
